Smart Plug

Quick Installation Guide

Warranty Card

SiMP Plug can only work with SiMPNiC SiMP Keeper. Please make sure you already have SiMPNiC SiMP Keeper. Otherwise SiMP Plug can't work.

For safety, please don't use electric appliance over 1600W on SiMP Plug.

2. Get Started

2.1 Preparation

Get your SiMPNiC SiMP Keeper ready and download SiMPNiC App in advance.

To make SiMP Plug work, you need to set up SiMPNiC SiMP Keeper first. Please refer to SiMPNiC Smart Home Kit Quick Installation Guide or tutorial in SiMPNiC App.

You can scan QR code below to download SiMPNiC App from APP Store (iOS) or Google Play (Android).

2.2 Power On and Installation

Plug SiMP Plug in socket.

After plugged in the socket, the LED indicator of SiMP Plug will blink in blue rapidly (for 4 minutes). If it is not blinking, refer to "Reset" section to return it to factory default settings.

2.3 Paring

Pairing SiMP Plug with your SiMP Keeper in SiMPNiC App.

If your SiMP Plug is from Smart Home Kit, it can be automatically added in your SiMPNiC App. You can tap the "Room" icon at the navigation bar and then you will see it.

- ① Make sure your smartphone is connected to Home Wi-Fi (2.4GHz).
- ② Open SiMPNiC App.
- ③ Select "Room" icon.
- ④ Select "+" to add device.
- ⑤ Select "SiMP Plug".
- ⑥ SiMP Keeper will beep 2 times and begin searching. The process lasts about 45 sec (remember to check indicator of SiMP Plug is blinking during this period). And then SiMP Plug will appear in the list.
- ⑦ If SiMP Plug is not found, select "Cancel" and search again.

2.4 Reset

When power is on, please press the side button for 5 seconds to reset it to default settings. SiMP Plug indicator will start blinking in blue (for about 4 minutes). During this period of time, you can pair it.

Attention:

Once you reset, SiMP Plug will return to factory default settings. Only if you want remove it from SiMPNiC App, otherwise it's not suggested to reset.

3. FAQ

Q: Why SiMP Plug indicator is not blinking?

A: If so, reset it to factory default settings by press side button for 5 seconds.

Q: Why SiMP Plug can not be found in the list?

A: First, make sure SiMP Plug indicator is blinking in blue before pairing. If it still can't be found, try to search again.

Q: How do I know SiMP Plug is paired with SiMP Keeper successfully?

A: If SiMP Plug is paired successfully, you will see it in your SiMPNiC App after 45 seconds.

Q: Why the indicator light in Red?

A: If the indicator light in Red, for safety, please reset it.
